

# Compelling LOVE & Sexual Identity

## An Interactive Study Guide for Small Group Discussion

Consider taking your viewing of the film to a deeper level by interacting with others in a small group. This guide will direct your reflections as you interact with each other about specific clips in the film. The guide will be structured in a modular format. Feel free to just use one clip alone, several clips back to back, or a continuing series of one or more clips. Also please exercise your freedom to select the questions that are most useful for you for each clip. Every question need not be used to create a significant small group experience.

As you interact with others, make it a special focus to honestly share your own personal thoughts, feelings, and responses rather than commenting on someone else's responses in the group. Everyone in the group should have the primary goal of understanding rather than agreement or even solution. It is also important to maintain the proper sequence of 1) to understand first, then 2) to be understood. As you interact over the different film clips of *Compelling Love & Sexual Identity*, you will have the opportunity to apply Paul Tillich's quote: "*The first duty of love is to listen.*"

The small group guide is designed to have the group leader's instructions in parenthesis and a sample statement of explanation or direction to the group in **bold black print**. Type appearing in **blue print** represents content that appears in the film clips. The timestamp is provided to help you locate the clip in the film.
